Dear Mr. Aldridge,

In your yesterday's story on Eddie Murray you use the word "seminal" in referring to David Lifton's Mistitled Best Evidence. It is neither. It is by far the most successful of the untenable assassination theory commercializations and exploitations of the JFK assassination. *(And it is not in any sense "seminal.")*

Not one of which ever had or survived any authentic peer review. Lifton's had none. And he knew the only thing new in his book was his theory, despite in effect, claiming to have discovered sex and invented the wheel; and he knew that at each and every step in his body-snatching theory it was impossible.

Sorry I've no spare copies of my current NEVER AGAIN! or I'd send you and Murray copies. I was going to lend him my lender but decided that might interfere with his concentration.

If you have any interest or any questions, we are but 10 minutes from I 70 and you'll be welcome.

On the basis of the official evidence only there without question was a conspiracy to kill JFK. But all the theories, none of which is proven and most of which are untenable, have served to confuse the people even more and to protect the official miscreants and the assassination mythology they perpetrated on us.

This is my 10th assassination book and to this day, going back to my first in 1965, Whitewash, I've yet to get a letter or a call from anyone claiming I treated him unfairly or wrote about him inaccurately.

And I am alone in restricting myself to the established official fact.

The others, Lifton in particular, equate masturbation with love.

Best wishes,

Harold Weisberg

Harold Weisberg

Sorry my typing cannot be any better. I'm 82, unwell and limited in what I can do. If you speak to Patton, who wants to be a lawyer, he'll find in my books what they do not teach in law schools. Especially on the King assassination. He like all others always have been also will be welcome. I make all I got from a dozen FOIA lawsuits available to all and for the most part they are those with whom I do not agree. About 250,000 once-withheld JFK assassination pages, about 80,000 on King's.
